

PRIMA-TECH-PRO LTD

Sofia, Bulgaria, EU

Competence in SMT and T.H. assembly technology since 1989

Contract Electronic Manufacturing in EU – Sofia, Bulgaria

Electronic Manufacturing Services Outsourcing in East Europe - Bulgaria

WE OFFER YOU quality services of:

- Printed Circuit Board Assembly including SMD
- Assembly and Test of Complete Electronic Devices including delivery if needed of blank PCB's, Sheet metal work, Transformers, Components, Cables, Packages.
- Long Term Experience and Reliability

HISTORY

- First registered in 1990 the company is on 500 sq.m. with 25 employees situated in the very centre of Bulgaria's electronic manufacturing factories.

EQUIPMENT and TECHNOLOGY

- 1. We have IVAS TECH, FRITSCH and TWS for SMD assembly
- 2. The T.H. assembly is on light-beam semi-automatic stations
- 3. EKRA and DIMA for printing
- 4. TWS reflow for soldering and adhesive curing
- 5. HEEB and GRASMANN for lead-free and tin-lead wave soldering
- 6. EBSOMAT and Streckfus for cutting, bending of Through Hole components
- 7. Visual inspection - Carl Zeiss
- 8. Hand soldering and repair – Leister, Weller, PACE
- 9. Functional test equipment

HOW WE ARE WORKING WITH CUSTOMERS

- 1. Price quoted on basis of customer's production documents - lay-out diagram, BOM, test-specification or sample device and batch size.
- 2. As a rule the customer delivers the components and PCB's free issued.
- 3. We are doing assembly and return shipping of the packed PCB's and units.

QUALITY MANAGEMENT SYSTEM

- Developed, installed and applied in accordance with ISO 9001: 2000 requirements. Applicable to the "Assembly of electronic circuit boards" – British Certification Institute, Registration # BCI-BG-034.

STRENGTHS AND BENEFITS when working with us:

- 1. COST – depending on the job our price varies from 6 to 10 EUR per 1 hour.
- 2. According to your documentation we could produce complete units including blank PCB's, mechanical /sheet metal, etc./ parts, screen printing of front panels etc., transformers, cables, test, packages.
- 3. Fast communication for production problems clearing.
- 4. Our special strength are prototype, pilot and small batch assemblies.
- 5. Reliable transport service with best shipping companies.
- 6. Experienced staff with long term competence.
- 7. Traditional hospitality and beautiful country to visit.
